Instructions

A. Collaboration is not allowed on quizzes.
B. Students may only use a page of notes during the quizzes.
C. Time is limited to one continuous hour.
D. Quizzes are due at the end of lecture on Thursday.
E. Late or missed quizzes will be given a score of zero. Any excuses must come directly from the Office of Student Life.
F. The two lowest quiz scores will be eliminated to allow for unforeseeable circumstances.
G. In case of doubt, students are expected to base their behavior on the values expressed in the Honor Code.
Problem 1:
A. $|e^{j\pi/2}| + |e^{j\pi}|$

$[2]$

B. $|e^{j\pi/2} + e^{j\pi}|$

$[\sqrt{2}]$

C. Write $je^{j\pi}$ in Cartesian form (i.e., $a + jb$).

$[-j]$

D. Write $j$ in polar form (i.e., $Ae^{j\phi}$). What is the effect of multiplying any number by $j$?

$e^{j\pi/2}$. Rotation by $\pi/2$. 
Problem 2:

A. Write a differential equation relating $v_{\text{in}}$ and $v_{\text{out}}$. Remember that for an inductor, $v_L = L \frac{di}{dt}$.

$$\dot{v}_{\text{out}} + \frac{1}{L/R} v_{\text{out}} = \frac{1}{L/R} v_{\text{in}}$$

B. If $v_{\text{in}} = V$ for $t > 0$, write the particular solution for $v_{\text{out}}$.

$$v_{\text{out, particular}} = V, t > 0$$

C. Write the homogeneous solution for $v_{\text{out}}$.

$$v_{\text{out, homogeneous}} = Ae^{\frac{t}{L/R}}, t > 0$$

D. Write the specific solution for $v_{\text{out}}$ assuming $v_{\text{out}}(0) = 0$.

$$v_{\text{out}} = V(1 - e^{-\frac{t}{L/R}}), t > 0$$

E. Make a clear, neat sketch of $v_{\text{out}}$ for $t > 0$. Show the initial value, asymptote and time constant.
Problem 3: Since we are trying a new format for the course, we need your help to assess its impact. Feel free to send any additional feedback directly to us.

A. End time: How long did the quiz take you?

B. Was the quiz a fair measure of your understanding?

C. Was the assignment effective preparation for the quiz?

D. Is the Monday session effective?

E. Are the connections between lecture, assignment and quiz clear?

F. Are the objectives of the course clear? Do you feel you are making progress towards those objectives?

G. Anything else?
